VALE, MARCH.

Hay, alder, hang thy tassels out
This blue and golden morn;
And willow, show thy silver plash,
Wild grape, thy scarlet thorn.
And velvet moss about the trees,
Lift every russet cup;
The dew is coming down this way,
With pearls to fill them up.

And birds, why tarry so a-South?
Spent is the bitter rain!
With messages of love and cheer
Come North, come North again.
—Ella Higginson.

A general reduction of 10% in the wages of 60,000 cotton mill operatives in New England became effective yesterday.

The marriage of Miss Elizabeth Brent and Don Forman, well known in this county, will take place at the First Presbyterian Church at Lexington this evening at 8 o'clock.

At Mt. Sterling the tobacco season has closed as far as buying is concerned, and figures show that over 5,000,000 pounds of tobacco were handled, bringing in to the farmers and growers over \$560,000.

Maysville insurance agents inform THE PUBLIC LEDGER that our statement in yesterday's issue in reference to the cancellation of all tobacco insurance in Mason county was erroneous, at least as far as their companies are concerned, as they are insuring all Equity tobacco offered them. We are glad to make the correction. We also find that a goodly portion of the sensational information about the tobacco situation emanating from certain quarters in the Bluegrass section and points in Ohio can well be taken with a grain of salt.

Mason Circuit Court.

Burgoyne & Mitchell, the Market street saloonists, were fined \$275 and costs for permitting gambling on their premises. They were fined the other day \$225, or a total of \$500 on two counts. Five other indictments for the same offense were dismissed.

CALL FOR REPUBLICAN CONVENTION.

Pursuant to instructions from the Ninth District Congressional Committee, the Republicans of Mason county are called to meet in mass convention at the Courthouse in Maysville on Saturday, April 4th, at 1 o'clock p. m., standard time, to select delegates to the Congressional Convention to be held at Grayson on April 8th for the purpose of nominating a Republican candidate for Congress in said District.

Maysville, Ky., March 26th, 1906.

We are betting on Governor Cox. He looks the part.—Frankfort State Journal.

THE dramatic tilt at Macauley's Theater Sunday between Miss ALICE LLOYD of the Dover Precinct and Governor WILLSON has been the engrossing subject all over the State. Miss LLOYD's charge that Governor WILLSON had sold out to the Tobacco Trust was a pointed remark that elicited a logical and eloquent reply from Kentucky's Governor, who refuted the lady's charges and made one of the most earnest speeches ever heard from him. From THE PUBLIC LEDGER's viewpoint Governor WILLSON has been favoring the Equity Society and permitting everything and anything to take a whack at the Tobacco Trust. The Governor is hampered by the peculiar situation in Kentucky, and unless something is done by somebody no one can answer what we may expect. The anomalous condition in the tobacco sections would lead all to hope that this year's crop be entirely eliminated, and we can then see if the tobacco question will adjust itself and force the Trust to terms.

USUALLY trade papers are reluctant to indicate why a Presidential election should have a bad effect on business, but the reason is plain enough. It is because while an election for President is pending there is always more or less apprehension that the tariff will be struck at. If the country could be assured that its fiscal policy will not be meddled with there would be no cause for fear and business would go on as usual in Presidential years.—San Francisco Chronicle.

Now it is claimed by eminent know-it-alls that people in prison live longer than they would if at liberty. Control, food, temperance, habits, sanitation, all operate to bring about longer life. The prison discipline makes it impossible for the prisoners to dissipate, the work is so arranged that he will not over-exert himself, and regular hours are compulsory—the times of retiring and rising always being the same. Irregularity kills much faster than money. The only persons who are less likely to find their health benefitted by prison life are consumptives.

SOME SUGGESTIONS FOR THE IMPROVING OF SCHOOL GROUNDS.

Select those trees and shrubs which are the commonest, because they are the cheapest, hardiest, and most likely to grow. There is no district so poor and bare that enough plants cannot be secured, without money, for the school yards. You will find them in the woods, in old yards, along the fences. It is little matter if no one knows their names.

A rare or strange plant may be introduced now and then from the nurseries if there is any money with which to buy such things. Plant it at some conspicuous point just in front of the border, where it will show off well, be out of the way and have some relation to the rest of the planting. Two or three purple-leaved, or variegated leaved bushes will add much to the spirit of the place, but many of them make it look fussy and over-done.

Have a definite plan for your planting, considering well the size and contour of your grounds. The aim should be to hide, by the aid of trees and shrubbery, all objectionable buildings, or portions of the place, and to so locate the trees and shrubs as to give a pleasing outlook and to afford protection from the winds. They should be planted however, in natural groups, and nature does not plant in straight stiff rows. Remember, too, that flower beds are much more effective when framed in a suitable background of foliage than when planted in open spaces. The open spaces should be made attractive with beautiful grass. Flowers are also effective in window boxes, or along the edge of the grounds—not in the center. Plant vines and climbing roses about porches, walls, old tree trunks, and at the posts of the fences, where they can be trained on either side along the wires, or rails.

We have the most beautiful trees all about us from which to choose for the school grounds—maple, elm, ash, beech, sycamore, willow, hickory, chestnut, poplar, oak and pine.

We have the most attractive shrubs in our woods and farmyards—dogwood, red-bud, mock-orange, rhododendron, laurel, witch-hazel, wild-rose, elder, sumac, sweet briar, haw, snowball, lilac, spirea, rose honeysuckle.

We have an abundance of flowers that are

easy to grow, and almost take care of themselves, lilies, pinks, holly-hocks, pinks, asters, goldenrod, petunias, cosmos, candytuft, marigolds, verbenas, sweet alysum, violets, poppies, jonquils, daffodils, crocus, narcissus and a long list of others. Care should be taken to choose such as bloom while the school is in session.

We can, if we really wish to do so, make every schoolhouse and grounds in Kentucky a place of beauty.

Why not beautify the Fifth Ward school grounds?

BOY TORTURED BY AWFUL HUMOR

Almost Covered with Eczema—No Night's Rest for Nearly a Year—Feared Lifelong Disfigurement—All Treatments Failed and Limit of Endurance Seemed Near.

PERFECT RECOVERY IS DUE TO CUTICURA

"With the exception of his hands and feet, my son Clyde (thirteen years old) was almost completely covered with eczema. Physicians treated him for nearly a year without helping him any. While they were very kind and did all in their power, yet nothing seemed to relieve him. And I had tried many remedies sent to me by kind friends but they all failed. His head, face, and neck were covered with large scabs which he would rub until they fell off. Then blood and matter would run out and that would be worse. Many a time he looked as if his ears would drop off. Friends coming to see him said that if he got well he would be disfigured for life."

"When it seemed as if he could possibly stand it no longer, I decided to try Cuticura. I bought a cake of Cuticura Soap, a box of Cuticura Ointment, and a bottle of Cuticura Resolvent. I used them in the evening and that was the first night for nearly a year that he slept. This may sound exaggerated to you, but in the morning there was a great change for the better. In about six weeks you could not have told that he had ever had anything wrong with him. I treated him twice a day for six months and at present he has a fine complexion and not a scar on his body. This story may seem overdrawn, but neither words nor pen can describe Clyde's suffering and how he looked. Our leading physician, Dr. —, recommends the Cuticura Remedies for eczema. Mrs. Alcy Cockburn, Shiloh, O., June 11, 1907."

Frequent shampoos with Cuticura Soap and weekly dressings with Cuticura stop falling hair, remove crusts, scales, and dandruff, destroy hair parasites, soothe irritated, itching surfaces, stimulate the hair follicles, supply the roots with nourishment, loosen the scalp skin, and make the hair grow upon a sweet, wholesome, healthy scalp, when all other remedies fail.

Complete External and Internal Treatment for Every Form of Infantile, Childhood, and Adult Eczema consists of Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (50c) to Heal the Skin, and Cuticura Resolvent (50c), or in the form of Chocolate Coated Pills (50c), per box of 60, to Purify the Blood. Sold throughout the world. Porter Drug & Chem. Co., Sole Free Agents, Boston, Mass.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

For proof of this statement read the following letters.

Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham: "For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes: "I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and to-day I am well and strong."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, and backache.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

SPOT LIGHT TURNED ON MISS ALICE LLOYD

Something About the Woman Who is Today the Idol of Kentucky's Tobacco Growers

Yesterday's Louisville Times.

Senator-elect W. O. Bradley, Governor Augustus E. Willson, J. B. Duke of the American Tobacco Company; Clarence LeBus, President of the Burley Tobacco Growers' Society and President Roosevelt himself are in total eclipse in Kentucky today.

The spotlight has been removed from them and they are over in one corner of the stage, groping in the darkness. They have been lost in the shuffle and standing in the fierce, white light that beats down on the stage from the clicking pieces of machines up in the balcony is a woman, who dresses in black, with a sparkling blue eye that can look daggers when the occasion demands it, and with a brilliant mind, and a

keen tongue that knows where and when to do the most effective lashing. She has a soft sweet voice and culture and refinement are apparent in every utterance and movement. She is the Joan of Arc of the Burley tobacco growers. Miss Alice Lloyd, the spokesman of "40,000 of the best men on earth, who wear brown jeans, but who are the peers of any man in the audience or the rostrum at Macauley's Theater" at the law and order meeting yesterday.

Miss Lloyd was seen this morning and was asked if she came to Louisville to make a speech and goad the Governor into replying.

WHY SHE CAME.

"Certainly not," said she this morning. "I simply came down to hear and see, but at

the same time I determined if any misstatements were made about the tobacco growers, I would correct them. That was all. I simply couldn't help doing that.

"Oh, if the people only knew the truth. If they only knew the struggle of the men in the Burley District. If they only knew how brave, how loyal and how patient these men have been. And they are real Kentuckians. They are the men who have made the State, and it makes me furious to think of any of our own blood and bone siding against our own men, women and children with a foreign corporation, grasping at everything in sight. That is why I talked. I was so excited. I know I did not do our cause justice. Oh, if I could have just said something that would have fired the heart of every farmer in Kentucky. But I never cease to hope and

pray that we will win and we will. If I just made one point or if I put one person to thinking at that meeting yesterday, I shall be happier over that than anything I ever did in my life.

"GOVERNOR GOT MAD."

"But, my goodness, didn't the Governor get mad! I was so sorry, too, but I had to tell him what the people think. He was real cold after the meeting, but I just can't help it. Oh, I shall be so happy if the Equity men think I did something useful or helpful to them, but so broken up if I made even one mistake."

HOME IN MASON COUNTY.

Miss Lloyd is perhaps 35 years old. Her home is near Dover, and she was once the head of a girls' school at Richmond, and recently volunteered her services to write a series of articles for the American Soci-

KENTUCKY POLITICS

Both Parties to Reorganize and Present New Lineup in Free-For-All Fight

Louisville Times.

Within the next two months both the Democratic and Republican parties in Kentucky are to be reorganized.

The Republican State Convention will be held here on May 6th, and there is a battle for the survival of the fittest raging within the ranks of that party. Richard P. Ernst and the Taft men are at the head of one faction, while Senator-elect W. O. Bradley and the Fairbanks men lead the other. If Mr. Ernst wins he will be elected National Committeeman and R. H. Winn of Mt. Sterling will head the State Committee. A Taft delegation will be sent to Chicago and Bradley and his cohorts will be sent to the rear and will not be permitted to attend the National Convention as delegates.

On the other hand, if Bradley wins, a Fairbanks delegation will represent Kentucky in the Chicago Convention, Ernst will be unhorsed, either E. T. Franks, W. H. Cox or M. H. Thatcher will be National Committeeman, and Ben L. Bruner will probably be the new head of the State Committee.

Among the Democrats there appears to be a wide sentiment for harmonious action, although reports continue that friends of former Governor Beckham are seeking to control the convention; that he wants to control the party organization; preside as temporary Chairman, defeat Urey Woodson for National Committeeman and exercise a general supervision of the party

AS SUCCESSFUL EAST AS IN THE WEST

Cooper's Theories Are Being Rapidly Accepted by Eastern People.

L. T. Cooper, whose theory that the human stomach is the cause of most ill health and who created a furore in Chicago, St. Louis and other western cities, is meeting with the same remarkable success with his medicine throughout the east. Cooper has convinced an immense number of people that his theory is sound and his medicine will do what he claims. Perhaps the most interesting features of the discussion this young man is causing, are the statements made by responsible people who have taken his medicines and have become enthusiastic converts to his beliefs. Among statements of this character, the following, by Mr. August Wittmer, 1049 Rockwell Court, Chicago, is characteristic of the widespread faith in Cooper, which has grown up in a comparatively short time. Mr. Wittmer says: "I wouldn't take \$1,000 and be in the condition I was three weeks ago. I was practically an invalid for fourteen years and think I had about all of the diseases known. My stomach was weak, and at times I would have an enor-

mous appetite, and then again none at all. Pie and cake made me sick, and I almost always had a sickening feeling in my stomach. I was nervous, and for weeks at a time could not sleep, and then again could sleep eighteen hours at a stretch. Sleep, however, seemed to do me no good, and I would awake tired and more exhausted than when I went to bed. "I was constipated, had pains in my back, and flutterings and pains in my heart. I was unable to work with any regularity, and took no interest in anything. I tried all kinds of medicines and doctors, but none benefited me. I had no energy and no ambition, and had about concluded to give up when the Cooper medicine was recommended. Thanks to it, my health seems completely restored and I feel like a new man. "Cooper medicines have created the greatest sensation of anything of the kind ever before introduced. We sell them, and will be glad to explain the nature of them to our callers. —T. J. Chenoweth.

PREDICTS FUTURE OF TOBACCO DISTRICTS

Grower Discusses the Paramount Issue in Kentucky

Lexington Herald.

To the Editor of The Herald.—Dear Sir: I read with a great deal of interest your editorial in this morning's paper. While it covers some of the points, I am sure did you know the situation as it really is, you would have brought out some points a great deal stronger than you did, and that you would not have written the last paragraph of that editorial.

The facts, as I see them, are these: There are some thirty-four hundred (3,400) or thirty-five hundred (3,500) acres of tobacco raised in this county. You can conservatively count one man's year of labor to raise three acres with the other outside labor that he can get, so you see, if tobacco is not raised, there will be from one thousand (1,000) to twelve hundred (1,200) unemployed laborers in our county. Each one of these laborers has to feed four or five mouths, and there is no building of electrical roads or any other public employment they can possibly find by which to support their families.

What we are going through now will be nothing to what we have to face four or five months from now, when all of this is proven beyond a doubt. Also, I think it will be an undisputed fact that of the tenants whose landlords have pooled their tobacco, which is not over one-third at the most of the tobacco raised in our county, most have disposed of their tobacco to the landlord or have drawn as much money as it will possibly bring. Having had a little experience in Southern Kentucky of the tobacco that passed through the pool and was sold and of the so-called "legitimate expenses," I think I speak with some knowledge. I am quite sure that should the Society of Equity succeed in selling all of its tobacco at an average price of 15 cents per pound, the individual farmer or tenant will not, after said "legitimate expenses" and shrinkage, realize more than 8 1/2 or 9 cents at the outside.

It is true that there are a few in this organization, such as the President of the organization, most of the speakers, most of the Chairmen of the County Boards and the Board members, who are getting now, and will get, a good thing out of this movement. One said to me not very long ago, when I suggested to him the way to stop this trouble was to rescind their order made at Winchester, not to raise any tobacco in 1908, "having advanced money to tenants or having bought their crop if they rescinded that order and allowed any tobacco to be raised they would lose money perhaps, instead of making a good thing out of it."

When I spoke of the number of people that

would be in destitute circumstances, he said, "it was their lookout." Besides, if they say no tobacco can be raised this year, they can more easily say that you must not raise any tobacco next year unless you let them make a profit on your tobacco by signing it to the Society of Equity to dispose of.

It is true, no one has suffered thus far in the Burley District, except those who are termed non-Equity men; or, more rightly speaking, those who want to raise a crop of tobacco this year. But when the tenants realize in some six months from now just what they are up against and labor goes down 75 cents or a dollar per day, instead of last year's wages of \$1.50 to \$2.00, and they see the wolf at their door, then I will be truly sorry for those men who have been prominent in the Society of Equity movement. While they seem now only to want to destroy our barns, I am afraid that those other men who will be following the precedent which has been set, will want their life blood as well as their homes and barns. Thinking as I do, I would much prefer going up against the present night rider, doing what I know is my right and best for my county and my people, than to face what I think I see coming in the future.

I hope and pray the Society of Equity will soon rescind that order passed at Winchester and insist on a part of a crop being put out, for I am sure that it is their only salvation, not only theirs but the tenants in Central Kentucky, and they should not let a few dollars in, or out of their pockets, stand in the way.

Now, I think I have enough to do without getting into any newspaper controversy, and only write you this to let you try to post yourself and see whether I am correct, and then do what you think is your duty. I would much prefer to talk to you, for I could tell you a lot more than I have written about the true situation.

You suggest that the Governor call the Legislature together, but with the present members thinking as they seem to think, it would be impossible to pass any law that would at all relieve the situation, and would only make it worse for everybody concerned.

I am sure that it would be impossible to convict the "night riders" on any evidence in the world, on account of the sympathy for them, or fear of them, which is such that men who saw them and know them refuse to testify and will even go on the stand and lie to keep from it.

I am sure that if I could make you see everything as it really is in this situation you would be bound to feel just as I do in this matter.

Hoping you will not think I am presuming in thus writing you, I remain sincerely yours,

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Maysville Citizen Can Afford to Ignore.

DANGER SIGNAL No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL No. 2 comes from the back. Back pains, dull and heavy or sharp and acute tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently.

Here's Maysville proof:

Mrs. Harvey Lyons, living in the Western part of Maysville, Ky., says: "In my estimation Doan's Kidney Pills are an ideal kidney remedy, and I have no hesitancy in so expressing myself. My husband was bothered a great deal by a severe pain across his back, and although his condition was never so serious that he was obliged to lay off from work, he nevertheless was in misery. An added source of annoyance was the irregular action of the kidney secretions, this symptom denoting that his trouble arose from disordered kidneys. Being advised to try Doan's Kidney Pills, he procured a supply at J. J. Wood & Son's Drugstore, and they acted just as beneficially in his case as in many others that he had read about. A short use entirely cured him, and up to the present time there has been no return of the trouble. Recently I was suddenly afflicted with a similar trouble, but began taking Doan's Kidney Pills, and from the beneficial result already received I look forward to a complete cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
